Skills

- Backend | Java | Hibernate | Spring Boot | Frontend | JavaScript | TypeScript | Angular | PostgreSQL | MySQL | NoSQL | MongoDB | Git
- Full-Stack | CI/CD | Unit Testing | OOP | REST | MVC | RabbitMQ | AWS | SQS | SNS | Redis | Microservices | Distributed Systems
- JUnit | Layered Arch | Clean Arch | Docker | English, Portuguese - *All professional proficiency*

Experience

Software Engineer **Freelance Developer / Business Owner** *Remote, Brazil* **09/2022 - Present**

- Created MARQUEBELA, a sophisticated application for beauty salon scheduling using **Java**, **Spring Boot**, and **Hibernate** for **backend development**. Implemented a frontend using **Angular** and **TypeScript**. Managed data with **PostgreSQL** and optimized performance with **Redis** caching. Utilized **Docker** for containerization and **CI/CD** practices to streamline deployment and testing processes with **JUnit**.
- Designed and developed SINCRONUS, a scheduling generator for schools and colleges, utilized by local institutions. Employed a combination of **Java**, **Spring Boot**, and **PostgreSQL** for backend development, ensuring robust performance and scalability. Integrated **RabbitMQ** for asynchronous communication and implemented RESTful APIs for efficient data exchange.
- Developed interactive and user-friendly interfaces using **Angular**, **JavaScript**, and **TypeScript**.
- Implemented **CI/CD** pipelines using **Git** for version control, **Docker** for containerization, and various testing strategies including unit testing.
- Applied **Layered Architecture** and **Clean Architecture** principles to design scalable and maintainable software solutions..

Software Engineer **Wise** *Remote, Brazil* **09/2022 - Present**

- Developed and implemented scalable enterprise **APIs** using **Java**, **Maven**, **Hibernate**, **AWS**, **SNS**, **SQS**, **Git**, that serve tens of thousands of requests daily.
- Designed and developed **PostgreSQL** schemas from the ground up and data modeling to support new features.
- Overhauled the **AWS** integration for **SQS** and **SNS** within the system, leading to significant cost savings (~= 10%).
- Improved the efficiency of messaging and notification services by optimizing configurations and implementing best practices.

Software Engineer **Projedata** *Remote, Brazil* **04/2021 - 12/2021**

- Contributed to the migration of a legacy desktop application to a modern web-based system using **Java** for backend development and **PL/SQL** for database interactions to ensure seamless functionality and data integrity.

Education

Bachelor of Science **Centro Universitário Barriga Verde - UNIBAVE** *Orleans, SC, BRAZIL* **02/2020 - 12/2023**

- Major in Information Systems

Projects

- **MARQUEBELA**: Developed MARQUEBELA, an application for beauty salon scheduling, used by local businesses.
- **SINCRONUS**: Designed and developed a scheduling generator for schools and colleges, used by local institutions.

Mentorship

- **Coding Tutor (at Unibave)**: Programming | Career advice | Professional portfolio. **(2023 - Present)**

Others

- **Finalist at REUNI Challenge 2023**: The Largest University Entrepreneurship Competition in Brazil. **(09/2023)**
